

Transfer Pump CBS

★ **DISTRIBUTION**
CRYOSTAR

Technical Index

★ Pump ID Meaning

CBS 185 / 3
(model) (piston Ø in mm) (piston stroke in mm)

Applications	Stationary pump for liquid transfer
	Road tankers
Liquids pumped	LO ₂ , LN ₂ , LAr, LCO ₂ , LNG, LN ₂ O
Drive type	Gearbox
Design pressure	50 bar / 725 PSI

★ Test Procedure

Each pump manufactured by CRYOSTAR is mechanically and cryogenically tested prior to shipment in our state-of-the-art testing facility to ensure that performance meets customer specification. The precision of measuring devices provides essential results : differential head, flow rate, seal gas consumption, pump efficiency, NPSH, noise and vibration levels – all documented and submitted to the customer.

★ Quality

Designed in compliance with guidelines like IGC 11/82 norm

★ Performance

★ Features

- 1 Front opening of housing : easy and reliable replacement of mechanical seal without the need for readjustment of the run-out
- 2 CRYOSTAR composite mechanical seal (4 times longer life time than carbon seals)
 - ★ for CO2 application : special CRYOSTAR high pressure mechanical seal
 - ★ for long life application : CRYOSTAR gas seal
- 3 High hydraulic efficiency closed impeller
- 4 Helical inducer allowing low required NPSH
- 5 Splash lubricated gearbox with oxygen compatible oil
- 6 Helicoidal gearwheels for low noise level
- 7 Pump support with 3 bearings : 2 for radial thrust and 1 for radial and axial thrust

Permacold barrier consisting of:

- 8 4 hollow arms open intermediate piece between the volute and the motor
- 9 Hollow shaft reducing thermal conductivity to a minimum
- 10 Thick insulation plate providing low thermal conductivity

★ Options

- ★ Differential pressure switch (protection again dry running)
- ★ Cool down temperature probe
- ★ Leak detection temperature probe
- ★ Purged seal
- ★ Purged gearbox
- ★ Complete skid mounted assembly
